Tutoring Experience

I have spent the past five years tutoring students from all over the world in IB Biology, AP Biology, and IGCSE Biology. I work closely with each student to ensure they understand complex concepts, guiding them through topics step by step. My students have achieved remarkable improvements in both their coursework and exam results.

In addition to IB and IGCSE, I also support students preparing for A-Level exams and AP courses. With a focus on building strong foundations, I help students tackle advanced biology topics with confidence, whether they're preparing for their final exams or university entrance tests.
