Qualifications

KU Leuven: MSc in Chemistry (2003–2005)

Ghent University: BSc in Biochemistry (1999–2003)

Vetted Tutor 

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With 17 years of experience, I've taught chemistry to students at various academic levels, from GCSE to IB and A-Level. I've worked with students from Belgium and across Europe, helping them excel in their chemistry studies. My background in biochemistry has provided me with a broad knowledge base to support my students' academic growth.

In addition to teaching chemistry, I have also worked as a research scientist, which has strengthened my expertise in the subject. My practical experience allows me to relate complex chemistry concepts to real-world applications, making the subject more approachable for students.

Throughout my tutoring career, I've helped students achieve top marks in their exams and develop a genuine interest in chemistry. Many of my students have successfully pursued degrees in science and engineering, equipped with the strong foundation we built together.
